

Innomotics Perfect Harmony GH180

Built on a legacy of excellence.

Technical overview

Output voltage range

2.3 to 11kV

Power range

0.12 to 25 MW (150 HP to 34000 HP)

Cooling

Air-cooled drives up to 12 MW
Water-cooled drives up to 25 MW

Max. output frequency

10-167 Hz without derating

Drive control methods

Sensorless or open loop vector control, encoder or closed loop
Vector control
Volts-hertz control

Degree protection

IP42 as standard (air-cooled)
IP5 as standard (water-cooled)
